

# ChargePoint Facts: February, 2013

## The largest network of independently owned charging stations in the world

- More than 1700 organizations providing charging via ChargePoint
- ChargePoint stations currently dispense more than 929 Megawatt hours (MWh) of electric fuel each month; the annual equivalent of 2,400,000 gallons of gas avoided and 35 million lbs. of Co2 emissions prevented
- Drivers plug into a ChargePoint station more than 4800 times every day
- More than 11,000 charging spots worldwide
- Number of EV drivers: 33,000
- Over 56,000 mobile app downloads
- Operating in 14 countries

## Reliability

- 24x7 driver support
- 24x7 centralized station monitoring
- Remote diagnosis, repair, and upgrade of stations
- Smart phone support on Android and iPhone
